1. Introduction

Initiator of the fourth edition of the Dutch Craft Beer Conference is the Dutch Association of Craft Brewers ([CRAFT](#)). The association is founded in 2003 and has grown out until the biggest cooperation of breweries in The Netherlands. Our (over 170) members are all entrepreneurs who are concerned with the development, production and selling of craft beers.

With over 500 breweries the market of craft beers in the Netherlands is booming. The consumption of pilsner reduces for many years now and at the same moment there is a strong (national and international) demand for local craft beers. Our members in the branche experience they are operating in a growth market.
